Patent No. 6576751
GENERAL INFORMATION:
APPLICANT: Alnemri, Emad S.
APPLICANT: Alnemri, Emad S.
TITLE OF INVENTION: Fadd-Like Anti-Apoptotic Molecules, Methods Of Using TITLE OF INVENTION: Compositions for And Methods Of Making The Same FILE REFERENCE: TUI2445
CURRENT APPLICATION NUMBER: US/09/723,450
CURRENT FILING DATE: 2000-11-28
PRIOR APPLICATION NUMBER: 09/276,993
                                                                                                                                                                                                                                                                                                                                                                                                                                     NUMBER OF SEQ ID NOS: 17
